

Harmonic Announces First Quarter 2016 Results

May 10, 2016

SAN JOSE, CA -- (Marketwired) -- 05/10/16 -- Harmonic Inc. (NASDAQ: HLIT), the worldwide leader in video delivery infrastructure, announced today its preliminary and unaudited results for the first quarter of 2016.

On February 29, 2016, Harmonic closed the acquisition of Thomson Video Networks ("TVN"). As a result, first quarter 2016 results include TVN results from March 1, 2016 through the end of the quarter, April 1, 2016.

GAAP net revenue for the first quarter of 2016 was \$81.8 million, compared with \$86.6 million for the fourth quarter of 2015 and \$104.0 million for the first quarter of 2015.

Non-GAAP net revenue for the first quarter of 2016 was \$82.5 million, compared with \$86.6 million for the fourth quarter of 2015 and \$104.0 million for the first quarter of 2015.

Bookings for the first quarter of 2016 were \$109.6 million, compared with \$101.0 million for the fourth quarter of 2015 and \$97.3 million for the first quarter of 2015.

GAAP net loss for the first quarter of 2016 was \$(25.2) million, or \$(0.33) per diluted share, compared with a GAAP net loss for the fourth quarter of 2015 of \$(7.2) million, or \$(0.08) per diluted share, and a GAAP net loss of \$(2.7) million, or \$(0.03) per diluted share, for the first quarter of 2015.

Non-GAAP net loss for the first quarter of 2016 was \$(8.2) million, or \$(0.11) per diluted share, compared with non-GAAP net income for the fourth quarter of 2015 of \$0.6 million, or \$0.01 per diluted share, and non-GAAP net income of \$4.5 million, or \$0.05 per diluted share, for the first quarter of 2015. See "Use of Non-GAAP Financial Measures" and "GAAP to Non-GAAP Reconciliations" below.

Total cash, cash equivalents and short-term investments were \$76.2 million at the end of the first quarter of 2016, down \$76.6 million from \$152.8 million at the end of the prior quarter, primarily due to the purchase price paid for the TVN acquisition, which is subject to post-closing adjustments. In the first quarter of 2016, the Company used approximately \$5.4 million of cash from operations.

"While our first quarter results fell below our expectations, new bookings grew sequentially and year-over-year and we ended the quarter with record backlog and deferred revenue," said Patrick Harshman, Harmonic's President and CEO. "We are excited that our transformation to virtual architectures and associated services remains on track including the announcement of our new VOS Cloud and VOS 360 software-as-a-service offerings. Our full-year financial guidance remains unchanged."

First Quarter 2016 Highlights

- Organic year-over-year bookings growth of 13%
 - Harmonic bookings of \$105 million, up 8% year-over-year
 - TVN bookings of \$5 million (March stub period)

Legal Notice Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements related to our expectations regarding: our final results for the first quarter ended April 1, 2016 and our expectations concerning quarter-on-quarter growth; net revenue, GAAP gross margins, GAAP operating expenses, GAAP operating profit (loss), GAAP EPS, non-GAAP gross margins, non-GAAP operating expenses, non-GAAP operating profit (loss), non-GAAP EPS, non-GAAP interest expense and non-GAAP tax rate for the second quarter of 2016 and fiscal year ended December 31, 2016. Our expectations regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties that could cause actual results to differ materially from those projected. These risks include, in no particular order, the following: unexpected delays, difficulties and/or costs relating to integrating TVN with Harmonic; anticipated business opportunities and operational efficiencies for the combined company do not fully materialize; the trends toward more high-definition, on-demand and anytime, anywhere video will not continue to develop at its current pace or will expire; a strong U.S. dollar may have a negative impact on our business in certain international markets; the possibility that our products will not generate sales that are commensurate with our expectations or that our cost of revenue or operating expenses may exceed our expectations; the mix of products and services sold in various geographies and the effect it has on gross margins; delays or decreases in capital spending in the cable, satellite and telco and broadcast and media industries; customer concentration and consolidation; the impact of general economic conditions on our sales and operations; our ability to develop new and enhanced products in a timely manner and market acceptance of our new or existing products; losses of one or more key customers; risks associated with our international operations, including in Ukraine; risks associated with our CCAP and VOS™ product initiatives, dependence on market acceptance of various types of broadband services, on the adoption of new broadband technologies and on broadband industry trends: inventory management; the lack of timely availability of parts or raw materials necessary to produce our products; the impact of increases in the prices of raw materials and oil; the effect of competition, on both revenue and gross margins; difficulties associated with rapid technological changes in our markets; risks associated with unpredictable sales cycles; our dependence on contract manufacturers and sole or limited source suppliers; the effect on our business of natural disasters; and risks associated with our outstanding convertible notes. The forward-looking statements contained in this press release are also subject to other risks and uncertainties, including those more fully described in Harmonic's filings with the Securities and Exchange Commission, including our most recent Annual Report on Form 10-K for the year ended December 31, 2015, our recent Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K. The forward-looking statements in this press release are based on information available to the Company as of the date hereof, and Harmonic disclaims any obligation to update any forward-looking statements.

Use of Non-GAAP Financial Measures

In establishing operating budgets, managing its business performance, and setting internal measurement targets, we exclude a number of items required by GAAP. Management believes that these accounting charges and credits, most of which are non-cash or non-recurring in nature, are not useful in managing its operations and business. Historically, the Company has also publicly presented these supplemental non-GAAP measures in order to assist the investment community to see the Company "through the eyes of management," and thereby enhance understanding of its operating performance. The non-GAAP measures presented here are: revenue, gross profit, operating expenses, income (loss) from operations and net income (loss) (including those amounts as a percentage of revenue), and net income (loss) per diluted share. The presentation of non-GAAP information is not intended to be considered in isolation or as a substitute for results prepared in accordance with GAAP, and is not necessarily comparable to non-GAAP results published by other companies. A reconciliation of the historical non-GAAP financial measures discussed in this press release to the most directly comparable historical GAAP financial measures is included with the financial statements provided with this press release. The non-GAAP adjustments described below have historically been excluded from our GAAP financial measures. These adjustments are acquisition accounting impacts to TVN deferred revenue and TVN inventory valuation, TVN acquisition-and integration-related costs, restructuring and related charges, impairment of long-term investment and non-cash items, such as stock-based compensation expense, amortization of intangibles, non-cash interest expenses related to convertible debt and adjustments that normalize the tax rate. With respect to our expectations under "Business Outlook" above, reconciliation of non-GAAP guidance measures to corresponding GAAP measures is not available without unreasonable efforts on a forward-looking basis due to the high variability and low visibility with respect to the charges which are excluded from these non-GAAP measures. The effects of stock-based compensation expense specific to common stock options are directly impacted by unpredictable fluctuations in our stock price. We expect the variability of the above charges to have a significant impact on our GAAP financial results.
