

# Management Presentation

March, 2015

# Forward Looking Statements

During the course of this presentation, we will provide projections and other forward looking statements regarding future events or the future financial performance of Harmonic, including expectations concerning our 2015 business strategy and our Q1 2015 financial outlook. Such statements are only current expectations and actual events or results may differ materially. We refer you to Harmonic's filings with the SEC, particularly our most recent Reports on Form 8-K, 10-Q and 10-K. These documents identify important risk factors that could cause actual results to differ materially from our projections or other forward looking statements.

## College Football Championship On ESPN *Sets Cable TV Viewership Record* With First 30+ Million Audience

ESPN has been on a ratings roll of late. Less than two weeks into 2015 and already the Walt Disney Company-owned cable network has had four telecasts average over 20 million viewers. ESPN also reached a cable first when the inaugural College Football Playoff Championship game (Ohio State over Oregon), garnered 33.4 million viewers, the first cablecast with an average of over 30 million viewers.

# U.S. Linear PayTV Data

harmonic

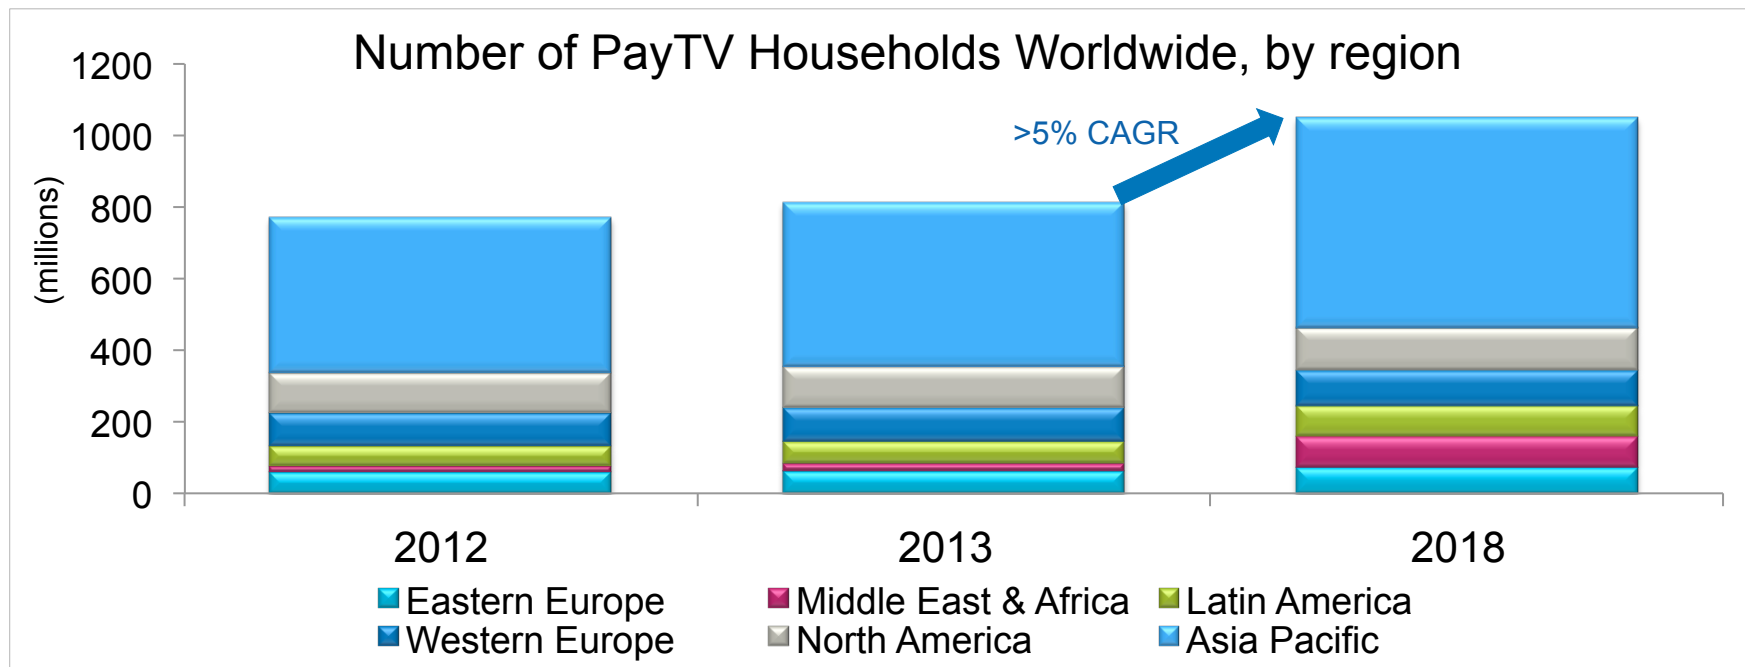

## Conclusions:

- The amount of viewing has not changed from 2013 to 2014
- >20% Increase in delayed viewing
- Delayed viewing scales by subscriber, not channel count

Note: 66,952 episodes in 2013, 67,502 episodes in 2014 Source: Rentrak Multiscreen Essentials

# Global PayTV Expansion

harmonic

**Conclusion:**

**Significant PayTV growth outside U.S.**

# OTT and Linear Function Collapse

harmonic

**Vodafone heads funding for Joyn developer, aims to gain OTT traction**

- \$8.3 M investment in Jibe Mobile
- Gaining traction in OTT services market

Vodafone Spain launched Joyne service to counter OTT messaging players & maintain value with customers

# Technology Transitions

harmonic

# 4K / UHD Momentum

harmonic

- 4 times the resolution of HD
- Brighter colors & higher contrast ratios
- Big push from consumer electronics manufactures
- The standards are still being discussed (HDR)

# 4K / UHD Momentum

harmonic

- Some TV production already starting to shoot in 4K
- OTT will be the first wave, followed by VOD, then live

# 4K / UHD Momentum

harmonic

- Expect service providers to deploy test channels in 2015
- Large scale deployments as early as 2016-2018
- Recompression of existing SD & HD channels to make room

## 4K / UHD Momentum

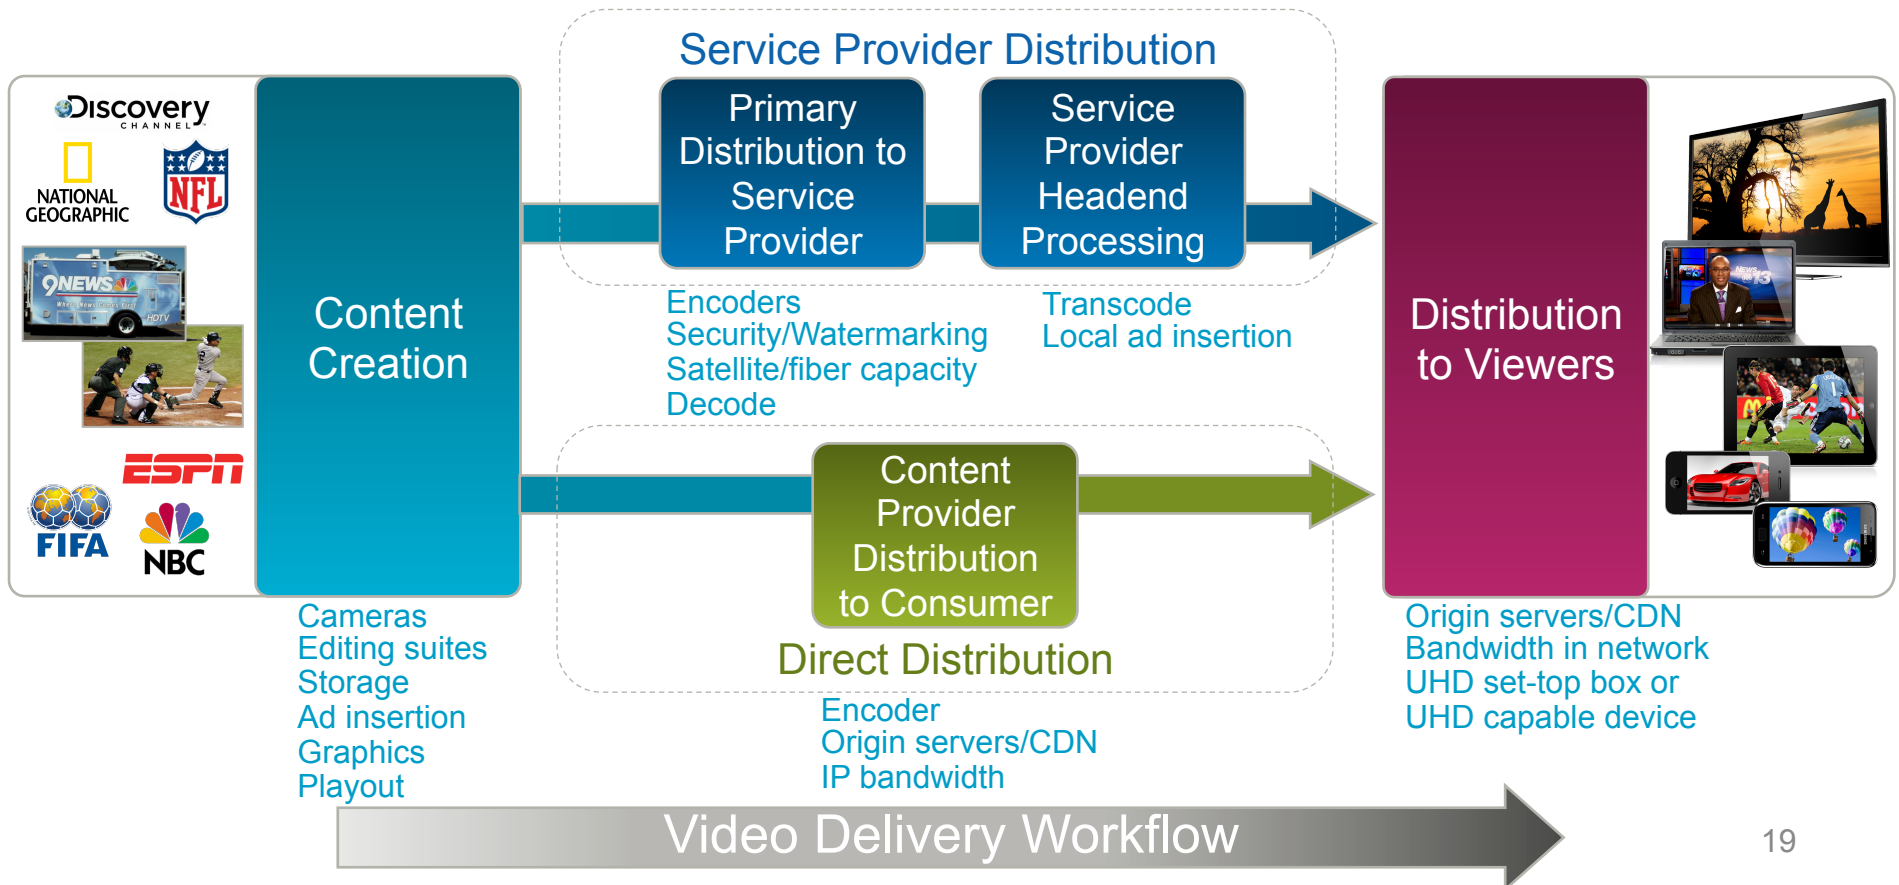

harmonic

- Harmonic is in the process of launching a full suite of products now to support this wave!

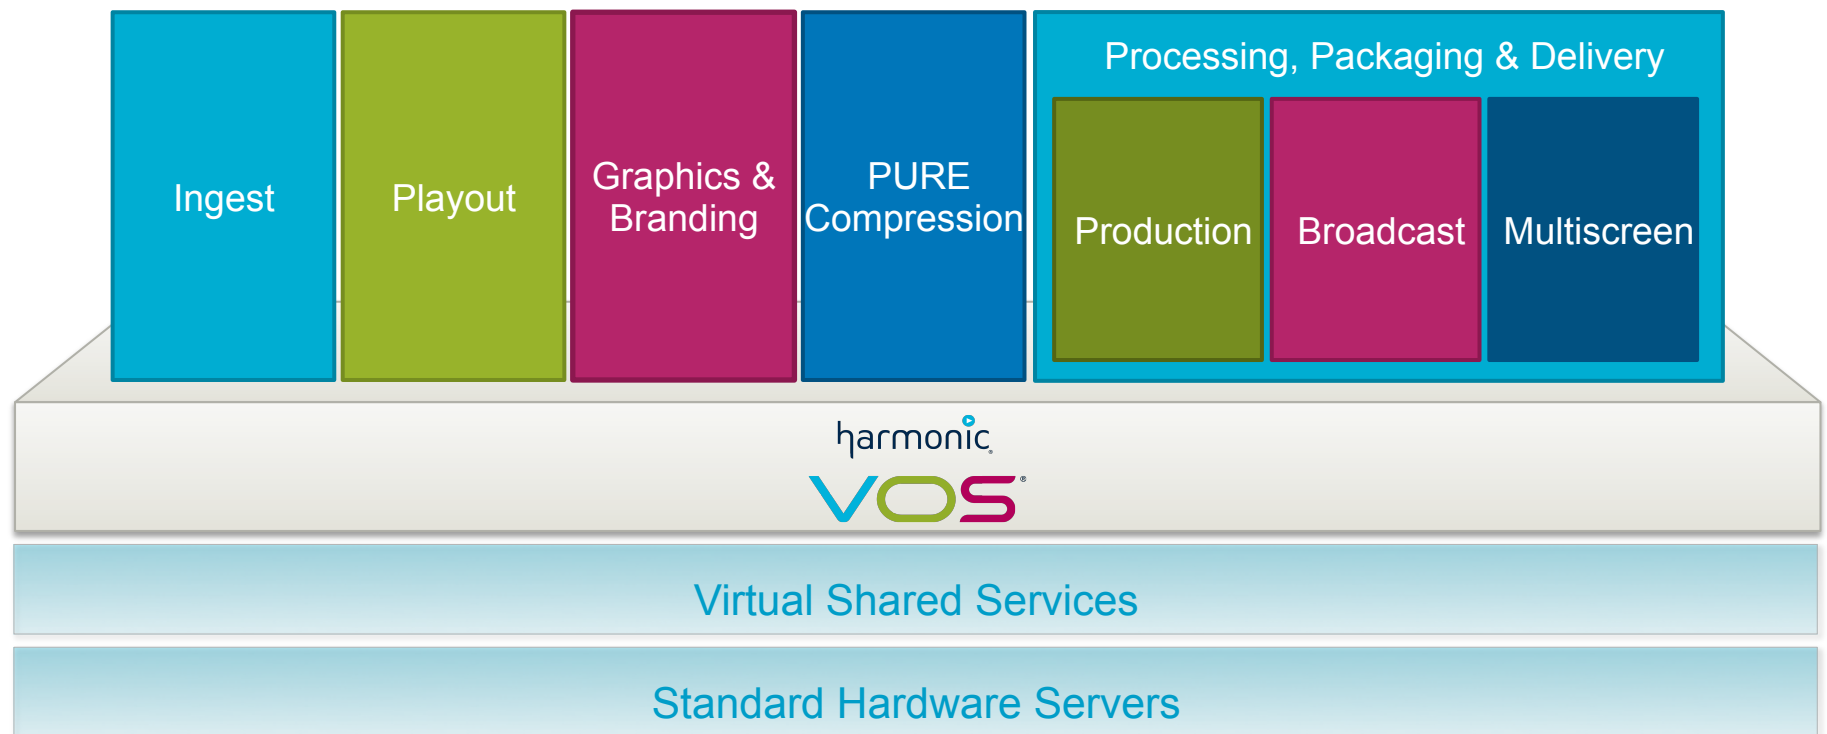

# Upgrading to UHD / HEVC

# Summary

## Positive trends in the market

- Opportunity is growing

## Market dynamics

- Consumer pull and the needed technology to deliver is maturing

## Multiple refresh cycles beginning

- Efficiency gains
  - Cloud & virtualization
  - HEVC
  - Function collapse, compression
- UHD
  - Video work flow

Harmonic leading the industry with solutions to capture growth

Cable Edge

# Cable is Exciting Again

harmonic

- Subscriber value increasing
- Premium services increasing
- Data service speed demand
- OTT rights revenues
- Cool factor of new STBs, user interfaces
- 10+ years of bandwidth capacity
- Healthy CAPEX trends

# Cable is Exciting Again

harmonic

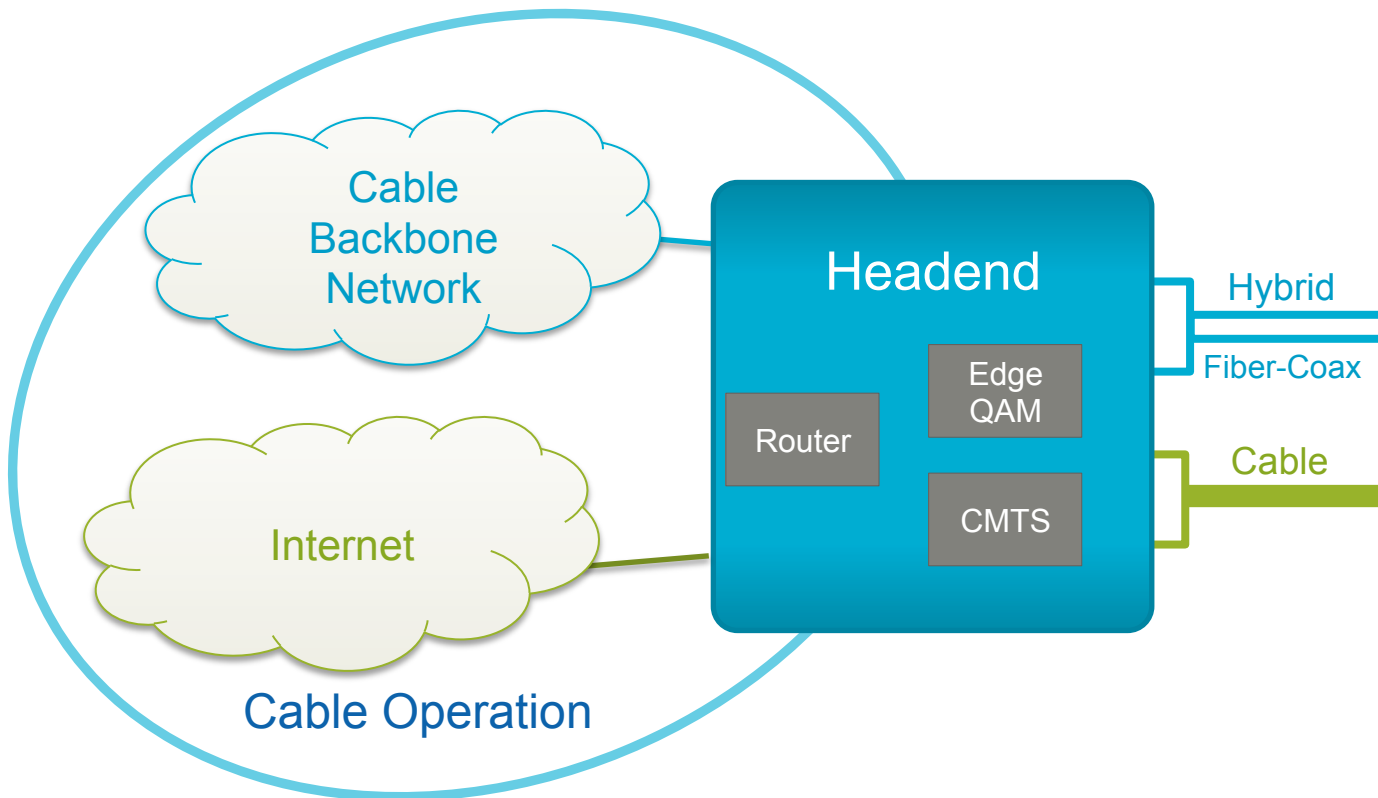

## Network-based Services

- Cloud UI – PPV/VOD
- nPVR
- TV Everywhere/Multiscreen
- Gaming

harmonic

# Video Business Target Model

harmonic

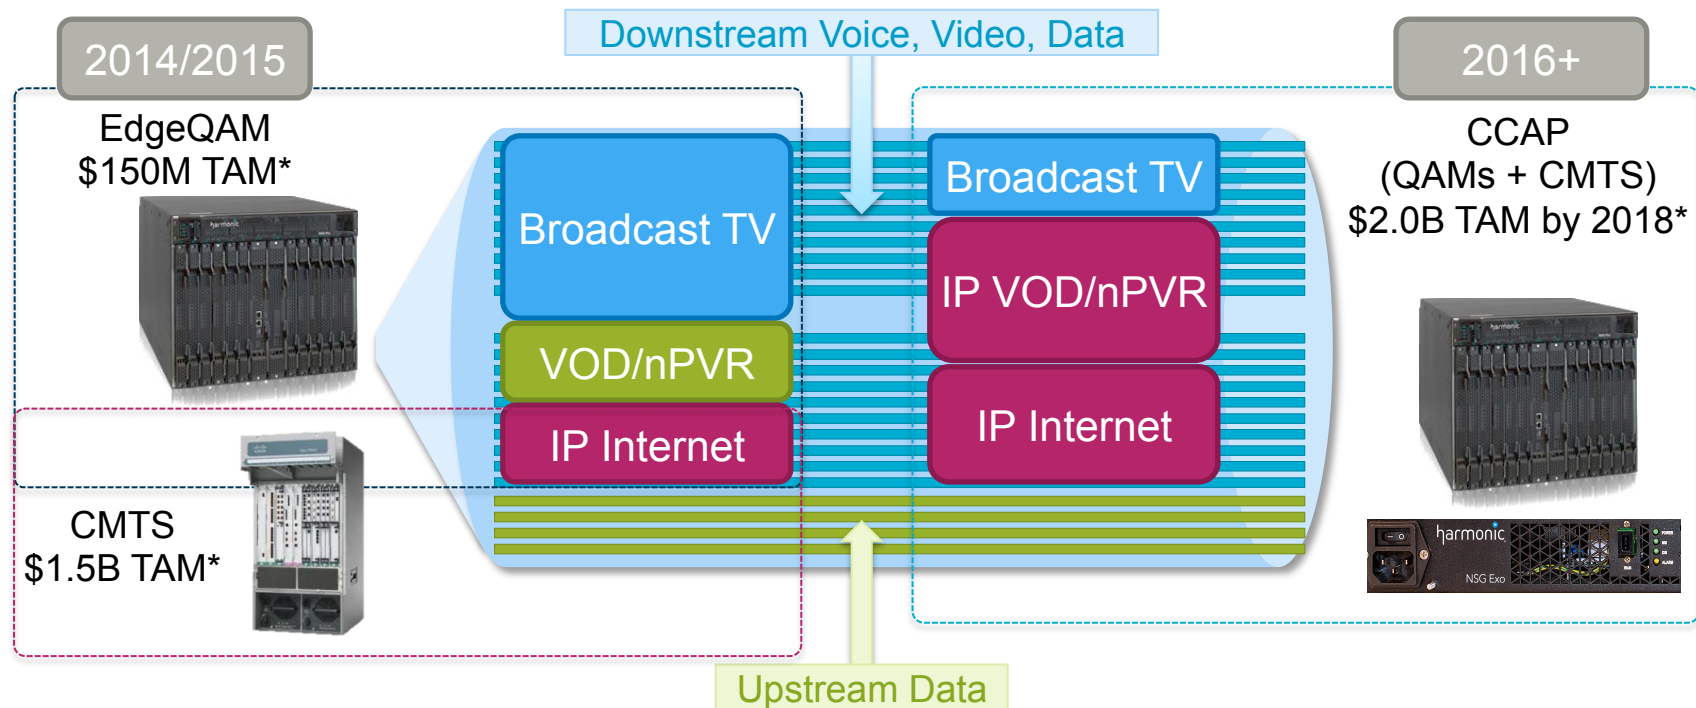

| Video            | 2014   | 2015                    | Target                    |
|------------------|--------|-------------------------|---------------------------|
| Revenue          | \$327M | Low single digit growth | Faster than market growth |
| Operating Margin | 6%     | 10 – 15%                | 15%+                      |

## Cloud and Virtualization

- Accretive to gross margin dollars and as a % of sales
- Drives R&D efficiencies
- Opens the door to recurring revenue models (SaaS, IaaS, etc.)

# Changing the Profile of Cable Edge

harmonic

Transition to CCAP will evolve over time

\*Source: Infonetics, February 2015, Harmonic estimates

# Cable Edge Business Target Model

| Cable Edge       | 2014   | 2015                            | Target                    |
|------------------|--------|---------------------------------|---------------------------|
| Revenue          | \$107M | Mid-to-high single Digit growth | Faster than market growth |
| Operating Margin | 1%     | Break even - 5%                 | 10% – 15%                 |

## CCAP

- Enabling disruptive economics
- Large TAM expansion by a factor of 13x\*
- ASP and gross margin improvements to traditional Edge QAM sale

\*Source: Infonetics, February 2015, Harmonic estimates

# Harmonic Target Model

|                       | 2015             | Target             |
|-----------------------|------------------|--------------------|
| Long Term Growth Rate | Low single digit | Faster than market |
| Gross Margin          | 53% - 55%        | 56% - 60%          |
| Operating Margin      | 8% - 10%         | 15%+               |

## Significant Share Repurchase

- Q4 2014, repurchased 1.0 million shares for \$6.7M
- Cumulative repurchases of 37.3 million shares for \$231M since 2Q 2012
- Shares outstanding on Dec. 31, 2014 approximately 87.7 million
- \$69M authorized for future purchases as of Dec. 31, 2014

Returned over 140% of cash from operations to shareholders since 2Q'12

# Building Shareholder Value

harmonic

- Continued focus on growth opportunities
- Accelerate core market share leadership
- Enhance margin profile
- Optimize balance sheet
- Drive long-term earnings accretion

Thank You

# Use of Non-GAAP Financial Measures

In establishing operating budgets, managing its business performance, and setting internal measurement targets, the Company excludes a number of items required by GAAP. Management believes that these accounting charges and credits, most of which are non-cash or non-recurring in nature, are not useful in managing its operations and business. Historically, the Company has also publicly presented these supplemental non-GAAP measures in order to assist the investment community to see the Company “through the eyes of management,” and thereby enhance understanding of its operating performance. The non-GAAP measures presented here are gross margin, operating expenses, income (loss) from operations and net income (loss) (including those amounts as a percentage of revenue), and net income (loss) per diluted share. The presentation of non-GAAP information is not intended to be considered in isolation or as a substitute for results prepared in accordance with GAAP, and is not necessarily comparable to non-GAAP results published by other companies. A reconciliation of the historical non-GAAP financial measures discussed in this presentation to the most directly comparable historical GAAP financial measures is included with the financial information contained in this presentation. The non-GAAP adjustments described below have historically been excluded from our GAAP financial measures. These adjustments are restructuring and related charges and non-cash items, such as stock-based compensation expense, amortization of intangibles, 2013 proxy contest-related expenses and adjustments that normalize the tax rate.

# Q4 2014 GAAP to Non-GAAP Reconciliations

| Three months ended  |                  |                         |                               |                   |
