

Harmonic and Rogers Communications Partner to Evolve Next-Generation Broadband Services

December 15, 2021

Harmonic and Rogers to Deploy Future-Ready Virtualized Converged Cable Access Platform Technology

SAN JOSE, Calif., Dec. 15, 2021 /PRNewswire/ -- Harmonic (NASDAQ: HLIT) today announced that it is partnering with Rogers Communications, a leading Canadian technology and media company, to power the company's next generation multi-gigabit broadband services using Harmonic's CableOS® cloud-native converged core platform.

"At Rogers, it is our top priority to deliver the latest cutting-edge technology and reliable broadband experiences to our customers," said Luciano Ramos, Senior Vice President of Development and Core Engineering at Rogers. "We're proud to be working with Harmonic to bring leading DAA and virtualized solutions for our cable and converged FTTH services. Deploying a cloud-native virtualized access platform with a clear path to DOCSIS 4.0 allows us to seamlessly evolve our network, while continuing to bring the best of connectivity to our customers."

Rogers is deploying Harmonic's CableOS Platform in a distributed access architecture (DAA) with virtualized CMTS software and the Ripple Remote-PHY (R-PHY) node. The CableOS Platform is future ready to support converged cable and FTTH, DOCSIS 4.0 technology and other advanced services including edge cloud. Rogers is using this technology to fully converge its data, voice and video services in the IP domain, which will bring several benefits including faster speed, higher availability for its customers, and a reduction in space, power and cooling costs to support its growing network.

"Harmonic is thrilled to partner with Rogers Communications as they evolve and scale their network to meet the demands for ultra-fast broadband, connecting Canadians to endless opportunities via the digital highway," said Nimrod Ben-Natan, Senior Vice President and General Manager, Cable Access Business at Harmonic. "With our CableOS Platform, Rogers Communications is able to meet customer connectivity demands with high reliability, security and low latency."

Harmonic's market-leading CableOS Platform powers more than 3 million cable modems for a growing number of innovative cable and fiber operators worldwide, including the largest operators in North America and Europe, and leading service providers in Latin America and Asia.

About Harmonic

Harmonic (NASDAQ: HLIT), the worldwide leader in virtualized cable access and video delivery solutions, enables media companies and service providers to deliver ultra-high-quality video streaming and broadcast services to consumers globally. The company revolutionized cable access networking via the industry's first virtualized cable access solution, enabling cable operators to more flexibly deploy gigabit internet service to consumers' homes and mobile devices. Whether simplifying OTT video delivery via innovative cloud and software platforms, or powering the delivery of gigabit internet cable services, Harmonic is changing the way media companies and service providers monetize live and on-demand content on every screen.
