Harmonic's VOS360 Media SaaS to Enable TOD with Low-Latency Live Sports Streaming with Superior Video Quality

SAN JOSE, Calif. and DOHA, Qatar, Sept. 9, 2024 /PRNewswire/ -- Harmonic (NASDAQ: HLIT) and TOD, a premier sports and entertainment platform for the MENA region by belN MEDIA GROUP, are pleased to announce a strategic partnership that elevates live sports streaming. By leveraging Harmonic's cloud-native VOS®360 Media SaaS, TOD aims to enhance the viewer experience for live sports fans across the region through unmatched agility, reliability, security and scalability.

James Walmsley, director of technology, product and analytics for TOD by beIN MEDIA GROUP, commented, "Given the intricate nature of live sports streaming workflows, it is essential to have a scalable video platform that offers the highest video quality and reliability with no margin for error. Harmonic's VOS360 Media SaaS unifies the entire media processing chain, increasing the efficiency of live and VOD sports streaming. By reducing latency and providing auto-scaling, the VOS360 platform allows us to deliver unrivalled sports experiences leveraging Deltatre's DIVA player."

Running on Microsoft Azure, Harmonic's VOS360 Media SaaS simplifies all stages of media processing and delivery for TOD. The end-to-end SaaS platform handles all essential media processing functions, including transcoding, encryption, packaging and origin.
