

## Harmonic Elevates the Broadband Experience with Innovations at ANGA COM 2025

May 20, 2025

SAN JOSE, Calif., May 20, 2025 /PRNewswire/ -- Harmonic (NASDAQ: HLIT) today announced that the company will showcase breakthrough broadband innovations at ANGA COM 2025. Powered by the market-leading cOS™ virtualized broadband platform, Harmonic's DOCSIS and fiber solutions provide multiple pathways to deliver fiber-grade broadband speeds with unparalleled service reliability, empowering operators to offer exceptional broadband experiences and earn subscriber loyalty.

"As the demand for premium broadband connectivity intensifies, operators are under pressure to strategically evolve their networks. Our virtualized broadband platform and portfolio of network edge devices are enabling service providers to navigate the complex industry landscape and deliver superior subscriber experiences," said Asaf Matatyaou, senior vice president, product, Broadband Business at Harmonic. "At ANGA COM, we'll showcase evolutionary paths to DOCSIS 4.0 and fiber to drive greater agility and ensure long-lasting business success for broadband service providers."

Harmonic will demonstrate exciting innovations at ANGA COM, enabling operators to:

- **Accelerate broadband delivery to MDUs:** Harmonic will unveil a transformative new solution for delivering fiber-grade broadband services to MDUs, unlocking cost-effective, rapid time-to-market opportunities in the highly competitive MDU market.
- **Deliver fiber-grade speeds with fiber optionality:** Harmonic's cOS platform delivers optionality to deploy and manage DOCSIS 3.1, BoostD 3.1, DOCSIS 4.0 and fiber technologies from a single pane of glass, empowering operators to deliver premium multigigabit broadband experiences with outstanding reliability.
- **Elevate broadband experiences:** The cOS platform brings innovations out of the lab and into the real world, transforming technologies for latency-sensitive applications — like gaming and video conferencing — into seamless, end-to-end low-latency experiences for subscribers.
- **Simplify the evolution to DOCSIS 4.0:** Harmonic's cOS platform simplifies network evolution by supporting Unified DOCSIS 4.0 with both Full Duplex (FDX) and Frequency Division Duplex (FDD) variants. At ANGA COM, Harmonic will be showcasing record-breaking speeds.
- **Enhance network reliability:** Harmonic's breakthrough Beacon intelligent speed maximizer application enhances spectrum efficiency and maximizes bandwidth to deliver faster, more reliable services to each subscriber, regardless of network conditions. This cutting-edge solution significantly enhances overall subscriber QoE.
- **Boost broadband QoE:** Harmonic's cOS Central features powerful AI-based network analytics to improve real-time network visibility and enable proactive resolution of issues, enabling brilliant broadband experiences for subscribers.

### Bringing Expertise to the ANGA COM Conference

Matatyaou, an industry-recognized broadband thought leader, will join two insightful panel discussions at the ANGA COM conference:

- He will share his expertise on network evolution through an engaging presentation, "From DOCSIS to PON: The Targeted Fiber Evolution of HFC Networks," on Wednesday, June 4 at 11:30 a.m.
- Matatyaou will also join an industry panel to discuss "Network Evolution in America: Opportunities and Challenges" on Wednesday, June 4 at 2:30 p.m.

Harmonic is the market share leader in cable broadband equipment, virtual CMTS and DAA, according to Dell'Oro Group, the trusted source for market information about the telecommunications, networks and data center IT industries. The company's market-leading cOS platform powers next-gen broadband services through more than 33 million modems worldwide for leading operators in North America, Europe, Latin America and Asia.

Harmonic will demonstrate its latest broadband innovations at ANGA COM, June 3-5 in Cologne, Germany in hall 8, stand C35.
